

Purpose

Verse 1

Since I was young I never knew what my purpose was

But I would always fix it , together

Like bob the builder

When my friends were sad I'd hold them tight

Tell them its alright

Cause things will get better

I'd help it get better

Chorus

I guess when you ask me what my purpose is

its to – make - a change , brightens someones day

To help somebody

Heal

Verse 2

This past year has me, appreciate the world

Understand that life's too short to worry bout

What the future holds

So I live in the moment

Do all that I can

Spend it with my friends and family

Making them feel loved

Chorus

I guess when you ask me what my purpose is

its to – make - a change , brightens someones day

To help somebody

Heal

### Bridge

Yh I've grown

And learned to see the world

Just for how it is

It ain't perfect but I want to help

I don't want to see tears

### Extended Chorus

I guess when you ask me what my purpose is

its to – make - a change , brightens someones day

To help somebody

Heal

I could be a doctor

A lawyer

Or even mp

I don't care at all

I just wanna heal the world
